

## MICHAEL BYUN, MD

### PATIENT TESTIMONIALS

"I went to the wrong place for my surgery. My abdominoplasty became infected and my belly incision opened up. No plastic surgeon was willing to help me since it was done by another surgeon. My tears began. I reached out to Dr. Michael Byun. I cried when Dr. Byun returned my phone call and said that he would be my doctor and help me. After months of care from Dr. Byun I am now healed and I feel great! I cry each time I see myself with joy and respect for my doctor, Dr. Michael Byun! Gracias a Dr. Byun por ser una gran persona antes que un gran cirujano plástico!" -*Shirley Lozano*

"I was hit by a car while riding my bicycle and suffered severe face and head injuries. I am a business attorney. I was referred to Dr. Byun by a colleague who is a nationally recognized plaintiff's medical malpractice attorney. Dr. Byun exceeded every expectation I had. My surgery was a complete success. Dr. Byun was responsive, compassionate, and exceptionally skilled. I would refer him without exception to anyone." -*Lawrence R. LaSusa, president of LaSusa Law Offices, PLC*

"During my 35-year anesthesia career I have had the opportunity to work with many cosmetic surgeons. In my 10 years of association with Dr. Byun, a conviction took root. Dr. Byun's philosophy I so believe in: 'Resurrect the youth without compromising the expression.' My experience reminds me of what Winston Churchill once said: 'There is nothing wrong with change, provided that change is in the right direction.' As for myself, I remain ever thankful to Dr. Byun for taking me on the journey of change in the right direction; youthful with the very special 'touch of an angel.'" -*Radha Sukhani, MD, River North Anesthesia Consultants, SC*

## MICHAEL BYUN, M.D.

CHICAGO COSMETIC SURGERY

Dr. Michael Byun received his medical degree from Northwestern University. He was the first ever to finish a seven-year integrated plastic surgery residency at Northwestern. His work on an endoscopic-assisted vertical midface composite lift was the first at Northwestern as well. He has pioneered mid-face muscle lift since. Visit [chicagocosmeticsurgery.com](http://chicagocosmeticsurgery.com) for more information on Dr. Byun's innovative and amazing work.
