

"On February 1, 2004, I arrived at Advocate Lutheran General Hospital's emergency room. I had suffered a brutal attack at the hands of my ex-husband with a baseball bat. He left me for dead in a public storage facility. I had multiple contusions, bruises, and lacerations on my face and frostbite to my feet. This is when Dr. Michael Byun came into my life. He saved my face and feet from the accident. **He has earned my utmost respect as a talented professional who has a passion for excellence, his genuine concern and care for my emotional well being as well as my physical health had granted him a home in my heart forever.** Now, I have no scars. Today, I am an active mother chasing after my young children." -Teri Jendusa-Nicolai,

20/20, NBC, ABC, WGN 2004

"My sister, Mary, was in a traumatic car accident that left her face paralyzed. She wouldn't look at herself in the mirror because she was going through a state of depression. My five sisters and I had to do something for her. At that moment, **God sent us an angel!** Mary received a facelift and the browlift as well as muscle repair on her face. Her self-esteem was restored again through Dr. Michael Byun." -Dorothy Russell and sisters of Mary Schmitt, Chicago Tribune, 2004

"I've seen Dr. Byun's work through my friends who had facelifts and body procedures. I wanted real opinions from my art class students, since kids don't lie. I got assurance from my students' thumbs-up reactions after seeing before and after photos through his Web site. They all loved it. Now that the surgery has been done, I don't think I could be any happier. **His mid facelift technique is masterful!**" -Elyse Martin

Dr. Michael Byun, director of Chicago Cosmetic Surgery, is a member of the American Society of Plastic Surgeons and a board-certified plastic surgeon who teaches other plastic surgeons about his restorative face and body procedures. He and his work have been featured on NBC, FOX, 20/20, Newsweek, Chicago Tribune, Chicago-Sun Times, and many other medical journals.
